**PREPARING NURSE LEADERS
FOR THE 21st CENTURY**

The Sylvia Bond Nursing Society

MISSION

The mission of the Sylvia Bond Nursing Society is to prepare professional nurses to collaborate, lead, and promote excellence in healthcare.

GOALS

The Sylvia Bond Nursing Society strives to improve healthcare by:

- Reinforcing vital nurse recruitment efforts through scholarship awards
- Providing educational support to established nursing professionals through scholarships, seminars, and an annual leadership institute
- Offering valuable networking and mentoring opportunities for nursing professionals in the Central Georgia area
- Educating the community on important healthcare issues
- Supporting and promoting research initiatives needed to save lives

BACKGROUND

The Sylvia Bond Nursing Society is named for one of Central Georgia's leading nurses who took the profession to a new level during her thirty years in practice. She exemplified the level of accountability and responsibility she believed in for nurses. Sylvia Bond insisted on excellence in patient care, established high standards for clinical practice, and emphasized educational preparation. She also led efforts to improve healthcare access within the community. Each of these principles is at the heart of the Sylvia Bond Nursing Society today. We need your help to pass this legacy on to tomorrow's nurses.
